

LGV1 DRIVERS CONSULTATIVE BALLOT – DAP, AGENCY RATES AND BREACH OF ANNUAL LEAVE AGREEMENT AT HATFIELD

The GMB is holding a consultative ballot of Yodel's LGV1 drivers over the issues of DAP (Driver Allocation Process), agency rates of pay and breach of the annual leave agreement leaving members short on their Annual Leave entitlement.

The GMB is asking you whether you would be prepared to take part in industrial action or action short of strike over:

- Yodel's failure to follow the Driver Allocation Process and the resulting scheduling being detrimental to drivers work / life balance.
- Yodel are paying agency drivers an enhanced rate which our directly employed members are not also in receipt of, GMB is calling for a compensatory payment to ensure parity between agency and directly employed staff.
- Management have breached the Annual Leave agreement and members are losing out on their annual leave entitlement.

Please note this is not a formal industrial action ballot, this is a consultative ballot. If enough people vote yes in the consultative ballot, we will move ahead with a formal industrial action ballot.
